### Boggs Says Russians Will Demand Liberty

Rio de Janeiro, July 29 (AP).

Representative Hale Boggs (D-La.) declared today the Soviet Union's educational advances eventually will lead the Russian people to demand freedom.

"The Soviet Union, we are told, has put its mightiest thrust behind the education of Soviet youth," Boggs told the Inter-parliamentary Union Conference.

"It is my conviction that educated people, no matter how indoctrinated, will demand freedom. Police state doctrines are ultimately doomed in an educated society."
